## Three Tips for Family Reading

We made you a video: [tinyurl.com/readingtipsBPL](https://tinyurl.com/readingtipsBPL)

### Let your child lead

Let them choose what you read together most of the time. Look for books that match their interests.

### Ask questions as you read

This helps your child get involved in the story and understand it. Be sure to give them lots of thinking time and keep it fun.

### Let them tell the story

Sometimes after you read a book, ask your child to tell you the story in their own words using the pictures.
